POWERFUL. EFFICIENT. PROVEN.

The Kubota 1.6L high-output engine is properly sized to provide the power needed to meet the demands of the busiest arena environment.

With 37% more kilowatts/horsepower per liter and 25% greater fuel economy than the leading competitor, the Model 546 delivers the industry's best fuel efficiency.

The Kubota-powered Model 546 is yet another reason Zamboni sells more machines than all of its competitors combined.

The Perfect Balance of Power and Efficiency

ZAMBONI®

Nothing else is even close

CONSUMES 25% Less FUEL than the competitor

Reduced fuel consumption without loss of performance

Highest power density in a compact engine package

Maximum power delivered to components when and where it's needed

Wide-open access and compact engine size for ease of serviceability

Meets emission standards of EPA/CARB/EU/MOC for a cleaner arena environment

Global support and service unmatched by the competition

Based on Kubota's industrial diesel engine platform

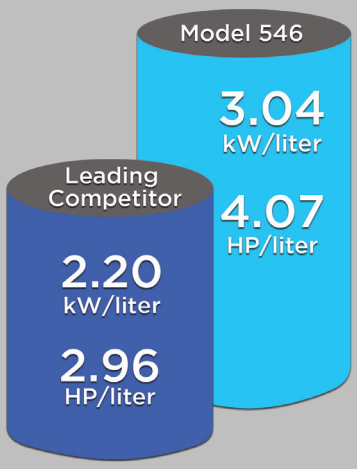

Exceptionally quiet and very low vibration

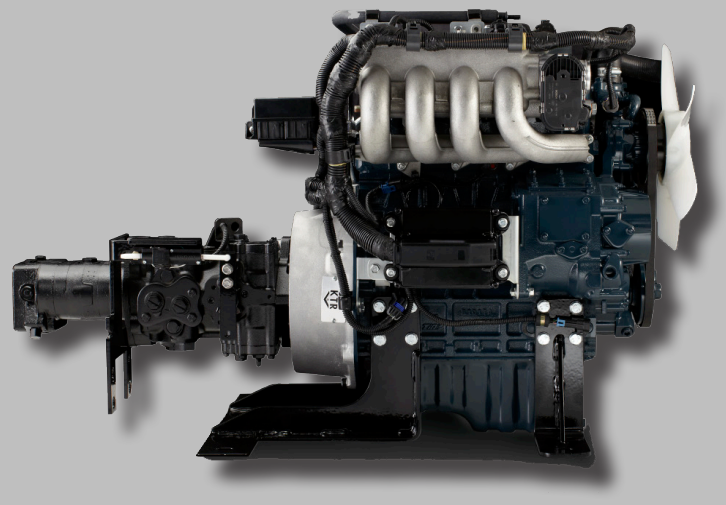

Geardrive valve train - No belts or chains

The most fuel efficient ice resurfacing machine produced in its class

HP/KW PER LITER

37% more than the the leading competitor
